

ART EXHIBITS

Thursday and Friday | Centennial Hall Prefunction Area

Paisley Callow, UCLA Arts Alumna

INVALID! A Visual Invisible Disability Narrative

Dem Bones

Visual description of the image *Dem Bones*:

The artist's dry shards of rib bones removed during surgery are captured in a large photo mural against the backdrop of the bright, multicolored pointy pencil tips she broke drawing so intensely that it activated a dormant structural compression anomaly. All the small light and bright elements are strewn randomly against a black background like stars dancing through space producing a dynamic celebratory feeling.
