

ART EXHIBITS

Thursday and Friday | Centennial Hall Prefunction Area

Paisley Callow, UCLA Arts Alumna

INVALID! A Visual Invisible Disability Narrative

Restraint

Visual description of the image *Restraint*:

Drawing this large colored pencil artwork arts while a student at UCLA Arts was the precipitating event that first caused the artist to manifest symptoms of Thoracic Outlet Syndrome. The work depicts an upside down seatbelt seen as if lying in the backseat of a car, drawn like a film negative where dark is light and light is dark. All linear diagonal shadows on the window are blended smooth in contrasting value stripes of shocking magenta for an intense feminine feel.
